Budget Committee Report

The budget committee is in general agreement with the proposed budget and Warrant Articles. The 16.47% increase is larger than we hoped, but reflects an earnest attempt to bring Rindge's services up to the necessary level for a Town of a population of over Five Thousand people. Each department's budget reflects some financial planning required for the town in the next several years. The budget as a whole reflects a 5% cost of living raise for all town employees and we have attempted to highlight some areas of growth in the individual departments with the following:

Town Office - Due to the increase in paper work, increases in this area are attributable to a staff increase of 1.25 workers and the fact that last years estimates for service and supplies was under budgeted.

Planning Board - Increase is in hope of holding on to an experienced secretary. This is a very important and demanding position.

Legal Expenses - Increase is due to impending legal actions that have not been settled, hopefully these funds will only be necessary this year to adequately represent the town.

Tax Map and assessment - Because of revaluation, we did not have to spend much money last year on this item. Bulk of this years increase is used to produce photographs of all town property required on tax documents.

Police - Major increase is in the hiring of a full time officer since the town is currently understaffed during key hours. Other towns with similar population will still have a force twice the size of ours.

Fire - Most increases are due to increased training, truck repair and a program to phase out the aging "Minitors".

Capital Reserve, Fire and Safety - These areas had been greatly under budgeted in the past years. Fire equipment reserve had been totally wiped out with this year's purchase. Moving the police into a new public safety building, will relieve the pressure on the town's need for office space. Serious funding in both of these areas will greatly reduce future expenditures.

In the area of the highway department, it should be noted that the town is far behind schedule in road repair and resurfacing. It is highly recommended that the town do at least 10% of the roads each year. This is less than the national average of seven years. Failure to maintain the roads will result in far more costly repairs in the future.

In looking at overall town government, if the town continues to grow, as it has in the '80s, then in the not too distant future, a Town Manager will be a great asset. The Selectmen have done a tremendous job but the needs of the Town are escalating at a rapid pace and the day will soon come that part time "labors of love", although admirable, just will not get the job done. Times are changing in Rindge and we must be fully aware and prepared to meet them.

To the Selectmen
Town of Rindge
Rindge, New Hampshire 03461

In planning and performing our audit of the financial statements of the Town of Rindge, New Hampshire for the year ended December 31, 1988, we considered the Town's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during our audit we became aware of several matters that are opportunities for strengthening internal controls and operating efficiency. The memorandum that accompanies this letter summarizes our comments and suggestions regarding those matters. This letter does not affect our report dated January 10, 1989, on the financial statements of the Town of Rindge, New Hampshire.

We will review the status of these comments during our next audit engagement. We have already discussed many of these comments and suggestions with various Town personnel, and we will be pleased to discuss them in further detail at your convenience, to perform any additional study of these matters, or to assist you implementing the recommendations.

REPORT OF THE AUDITORS

Mason & Rich Professional Association
Two Capital Plaza, Suite 3-1
Concord, New Hampshire 03301

February 10, 1989

Board of Selectmen
Town of Rindge
Rindge, New Hampshire 03461

We have audited the accompanying general purpose financial statements of the Town of Rindge, New Hampshire as of and for the year ended December 31, 1988, as listed in the table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with generally accepted audited standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion the combined financial statements referred to above present fairly, in all material respect, the financial position of the Town of Rindge, New Hampshire as at December 31, 1988 and the results of its operations and cash flows of its nonexpendable trust funds for the year then ended in conformity with generally accepted accounting principles.

Our examination was made for the purpose of forming an opinion on the combined financial statements taken as a whole. The accompanying combining and individual fund financial statements listed as supporting schedules in the table of contents are presented for purposes of additional analysis and are not a required part of the combined financial statements of the Town of Rindge, New Hampshire. The information has been subjected to the auditing procedures applied in the examination of the combined financial statements and, in our opinion, is fairly stated in all material respects in relation to the combined financial statements taken as a whole.

(1) Property Tax Bills

Property tax bills in 1988 were sent out on December 10, 1988. The lateness of these bills caused problems with cash flow and cost the Town additional interest on tax anticipation notes and County taxes.

Recommendation

Since property tax billings are by far the greatest source of revenue in the Town, bills should go out at least by November. The Town should seriously consider the benefits of semiannual billings.

Management's Comments

Since the local legislative body (Town Meeting) has voted against semiannual billings, twice now, the Selectmen will have to address whether they want to enact this without the support of the Town.

(2) Reconciliation of Treasurer/Selectmens' Records

The Treasurer does not reconcile with the Tax Collector or Selectmens' office at any time during the year. This situation caused no major discrepancies as far as the Tax Collector was concerned this year. However, the possibility of problems in the future exists given the amount of money involved and the frequency of deposits. The fact that the Treasurer does not reconcile with the Selectmens' records did pose a problem this year. In the Town report, the difference between the Treasurer's and Selectmens' expenditures was about \$14,000. While we were able to reconcile this amount, it took considerable additional time on our part.

Recommendation

It is vital to proper cash management and internal controls of the Town that the Treasurer reconcile with the Tax Collector and Selectmens' office on a monthly basis. Any discrepancies must be resolved quickly. It should be noted that each of these functions are not separate entities, but rather separate departments within one entity, the Town.

Management's Comments

We are in full agreement with the above recommendations and note that in the past the three departments were acting as separate entities relying on the year end audit for reconciliation. Beginning in 1989 the Treasurer's report will integrate directly with the General Ledger program on our computer. As of 1989, the Treasurer is reconciling on a monthly basis with the other departments, including the Tax Collector. The reporting format has been changed to make reconciliation easier.

(3) Budget

Although the overall actual expenditures were within the budget, we observed that several line items in the budget were over or under expended, one by over \$47,000, (overlay).

Recommendation

Cumulative line item totals should be analyzed on a regular basis to ensure that over expenditures do not occur.

In addition, it appears that the Town does not always consider the prior year's actual amounts when the budget is compiled (for example, amounts transferred from the Trust Funds)

Management's Comments

1. Expenses are reviewed by the Selectmen and Department Heads on a quarterly basis - looking at percentages of expenditures to date.

2. Last year's expenses do form a basis for next year's budget in most cases. Some things are unpredictable and these involve the largest of the overdrafts in the budgeted line items.

- a. Fire Department - based on an unknown "number of fires".
- b. Interest TANS - even the best of educated guesses cannot predict changes in interest rates available over the year.
- c. Town Office Expenses - mostly due to vandalism and subsequent repairs not covered by insurance.
- d. Overlay - this was the first year that tax billing was done on the in-house computer. Although, the staff worked long hours to enter all the data, there were some errors. Two properties were double-billed. One of those (PSNH) involved a considerable abatement of \$35,000. We anticipate this was a "one time" occurrence and will not be repeated. When the Selectmen estimated overlay with the DRA, we were unaware of these errors.

REPORT OF THE ROAD AGENT
DECEMBER 31, 1989

The 1989 Highway Department's major road projects were as follows:

1) Middle Winchendon Road from Lord Brook to Route 119. Pavement grinding and hot top base coarse. Total of 8,620 feet.

2) Woodbound Road from West Main to the Davis Crossing Road. Pavement grinding and hot top base coarse. Total of 4,100 feet.

3) Rand Road from Route 202 to the Railroad R.O.W. Gravelled and hot top base coarse. Total of 1,582 feet.

4) Overlay with hot top a portion of Main Street, School Street, Payson Hill and Todd Hill. This was done in conjunction with the work done by New England Telephone burying conduit for their overhead lines.

5) Overlay with hot top the balance of School Street from Route 119 to the center. Total of 3,000 feet.

We were able to pave two portions of Hunt Hill for 800 feet and shim the first 600 foot section of Drag Hill with hot top.

This work represents approximately 6% or 3.54 miles out of the 60 miles of paved roads we have.

The Highway Department's goal is a minimum of 10% or 6 miles each year. Hopefully, we may reach this in the near future.

This year we accepted Tico Road for a distance of 3,000 feet which was added to our existing mileage.

INGALLS MEMORIAL LIBRARY
Report of the Trustees 1989

Your library was saddened by the retirement of Marjorie Priester our Librarian for the past 8 years. She has brought a special blend of cheeriness and helpfulness to our patrons over the years and has very ably handled the program of new book and video selections for which we are well known.

Our children's Librarian, Dianne Gardenour was appointed Librarian and promptly started the search for a new children's Librarian. This position was filled by Jeanne Olson of Rindge at the beginning of 1990. We welcome both of our new librarians.

Librarian's Report 1989

1989 was a very good year for our library. Our circulation reflects that many people are using our library for those most wanted new releases, especially fiction and mysteries. Also very popular are our videos. We have a good mixture of adult and children. We have over 260 videos to choose from.

Plans for the upcoming year include updating of the reference collection and continuous updating of the general collection. We would also like to implement adult programming and add new ones for the children along with the current story times and summer reading programs.

Another goal is to work towards informing the public of the services we do provide, such as interlibrary loan, where we may borrow books from libraries throughout the state. Another service we provide is to loan books to the Rindge Memorial School. For the past two years we have loaned books, mostly fiction to the school during the school year to help supplement their collection and rotate them two to three times a year to give them a wider variety of books.

I have enjoyed meeting people from the community and their families in the past year. Jeanne and I look forward to meeting more of the towns people in the new year ahead. Please tell us of the things that interest you, we want to be a valuable place for everyone in town.

Hope to see you soon.

THE RINDGE CONSERVATION COMMISSION

The Rindge Conservation Commission (CC) monitors and protects the natural resources of Rindge. To this end, its members review dredge & fill applications and subdivision plans and make suggestions to modify projects so that the projects have less negative impact on the environment. The commission oversees the town forest and the Contoocook Marsh.

During 1989 the Rindge Conservation Commission reviewed fifteen dredge & fill applications which were subsequently approved and investigated three dredge & fill violations which were reported to the NH Wetlands Board for action. Twelve additional sites were visited pertaining to septic system placement, gravel pits or possible wetland's violations. CC members attended Board of Adjustment and Planning Board meetings and site visits and advised these boards on conservation matters.

Commission members participated in the annual State CC Meeting and a NH Wetlands Board Hearing and helped publicize a Gas Pipeline Informational Meeting held in Rindge. A letter was sent to area Realtors informing them of new regulations regarding the reporting of septic systems near great ponds prior to the sale of property.

Commission members participated on the Contoocook Greenway Coordinating Committee in an effort to join the Contoocook Marsh Conservation Area with protected areas of other towns along the River. Plans are being coordinated into an application under the National Rivers Protection Act which will include a resource inventory of wildlife, plant life and historical features.

Debbie Pratt was selected to attend Youth Conservation Camp and received a scholarship provided by the Monadnock Bank.

The CC meets on the 4th Wednesday of each month at 7 P.M. at the Ingalls Memorial Library with the public invited to attend.

RINDGE PLANNING BOARD

1989

In 1989 the development in Rindge greatly increased in comparison to 1988. The Board held 62 meetings including 28 formal hearings, 11 work meetings, and 21 site inspections. During these meetings the Board reviewed 14 minor subdivision applications of which 12 were approved and 2 were still pending at the end of the year and 7 major subdivisions, of which 5 were approved and 2 were discontinued. These subdivisions created a combined total of 68 new building lots. Also approved were 7 technical subdivisions (which do not create building lots) 8 site plan reviews, in which commercial or industrial development was either created or expanded, and 3 excavation permits.

A hearing for amendments to the Planned Unit Residential Development regulations was held in January, in which the Board adopted changes in the overall density formula by no longer allowing wetlands to be used in the calculations. One Zoning amendment hearing was held in February to clarify the area requirements for two-family and multifamily dwellings, and the regulation of the parking and storage of travel trailers. A special hearing was held in July in which the Board attempted to alleviate some of the problems that existed with an excavation project on Old New Ipswich Road by negotiating with local developers and restricting the hours of operation, making life more tolerable for the residents affected by that excavation.

The Southwest Region Planning Commission, which reviewed 60 development applications, again provided invaluable service to the Board. Their assistance helped eliminate the preliminary consultations of applicants with the Board and streamlined the processing of applications from the beginning review to the formal hearings.

The Board wishes to thank the Town for its support in appropriating the necessary funds for the Macintosh SE computer purchased in July. The computer greatly aids the Board's Secretary and Clerk, and expedites the tremendous amount of paper work involved.

The developers of the proposed Cheshire Marketplace, Rindge's first shopping mall, completed their plans and received the state permits necessary to submit their plans to the Board which approved the project in December.

The Board has completed its work on the Master Plan and is holding public hearings prior to its adoption.

In March, Bliss Ames and Tom Coneys were elected to serve on the Board for three years and Paul Susca was elected to a two-year term. In September Geraldine Ducharme and Marion Winters were appointed as alternates.

Board Members:

David M. Tower, Chairman (1991)
 Douglas F. Gilroy, Vice Chairman (1990)
 Kim Sands, Secretary (1990)
 Bliss Ames (1992)
 Thomas Coneys (1992)
 Paul A. Susca (1991)

Alternates:

RINDGE BOARD OF ADJUSTMENT

The Board met for twelve meetings and went on three site reviews.

They granted 16 variances, 3 special exceptions, and 15 special exceptions relating to Wetland ordinance. The Board also granted two building permits. Eight variances were denied. Three requests were continued from last year. Three cases were dismissed and one request was appealed but not granted.

William Harper, David Fisher, and Michael Licata resigned. Al Mayer, Norman May, Robert Dufour were appointed permanent members. Nancy O'Loughlin and Roy Haskell were appointed as alternates.

REPORT OF THE SELECTMEN

1989

The year 1989 was a busy and trying one for the Town of Rindge. Some of the many projects were paving portions of Middle Winchendon Road, Woodbound Road, Rand Road, Main Street and School Street. We accepted one new road - Tico Road, located off Swan Point Road. The Town purchased a new pumper for the Fire Department (actual purchase took place in early 1990) and a dump truck for the Highway Department. With the assistance of the "Ward Trust Fund" the painting of the Meeting House was begun, but due to poor weather conditions was not completed and will be finished this Spring. This project will be completed at no expense to the Town.

The New Hampshire Department of Revenue Administration, after almost an entire year of work, completed the revaluation of all town property in late November of this year. After the setting of the tax rate, the bills were mailed out in the middle of December. The conference room at the Town Office was used by the D.R.A. as their work place, forcing several boards to relocate themselves for the entire year. We would like to express our thanks to the various boards and committees for their cooperation during this trying period. A great amount of time was expended by the staff at the Town Office and the addition of a new staff member was required in order to complete the revaluation project on time. The Board would like to express their thanks to all staff members for the additional hours of work that were necessary.

The Selectmen would like to acknowledge and thank the many volunteers who so generously gave of their valuable time to make Rindge a great community. We would especially like to thank all the volunteers that through adverse weather conditions completed the playground at the Rindge Memorial School. It truly shows that a community working together can accomplish almost any task.

A Town Manager Study Committee was established and the findings of that committee are presented in their report which appears in this Annual Report.

We would like to thank all Town Officials, Employees, Board and Committee members and the Town Attorney for providing continuous service to the Town. We especially want to thank our Treasurer, Peter Wells, who is retiring from his position for the service he provided the Town. He was instrumental in introducing and implementing computerization of the Town. We thank all those who gave unselfishly of themselves and hope for their continued support.

A report of 1989 would not be complete without mention of the legal difficulties faced by the Town in Nottingham vs. Town of Rindge. As most of you know, the Superior Court ordered the Town to pay Eveline Nottingham the sum of \$15,156.10 for reimbursement of legal fees she incurred in her litigation against the Town. While the current Board of Selectmen does not necessarily agree with all of the findings of the court order, we realize we must abide by the decision and as ordered by the court have reimbursed Mrs. Nottingham to comply with that order.

Former Selectman, John D. Walsh, who also does not necessarily agree with all the findings of the court order, felt so strongly that this burden not be placed on the taxpayers that he has personally reimbursed the Town the entire amount as well as settled all pending issues with all parties involved. The Board would like to take this opportunity to recognize John D. Walsh for his many years of service and thank him for this unselfish act on behalf of the Town.

The Selectmen are aware that many in town became divided over this issue and we urge the Townspeople to put this matter behind us, learn from it what we can and go forward into a new decade united as a community.

TOTAL CALLS = 426

This is my first report as the Chief of the Rindge Fire Department and I would like to say what a pleasure it is to work with such a caring and committed group of people such as your Fire Department. The members of the department put in a lot of hours keeping the apparatus and equipment in good condition and preparing for any emergency that might arise. Again, we would like to reiterate that we are fortunate to belong to the Southwest New Hampshire Fire District Mutual Aid system. As luck would have it, two of our major fires occurred during the day time when it takes the longest to get all our people to the scene. Thanks to our Mutual Aid system we received aid in the form of apparatus and manpower. We in the Rindge Fire Department are often called on to extend help to the surrounding communities.

In Chief Hoyt's report from last year, he mentioned that there were three major needs that required immediate attention. We are happy to say that we are on the way to meeting those needs. The first need was to address the rusting problem on our 1976 attack pumper. At Town Meeting, we did that when we voted to purchase a new pumper. The bid was awarded to the KME Corporation in Nesquehoning, Pa. Just recently we took delivery of a 1989 KME pumper which was equipped with a 500 gallon tank and a 1,000 gallon per minute pump. The truck was recently pictured on the front page of the Monadnock Ledger and should serve the town for many years to come. Secondly, Chief Hoyt mentioned the problem of radio communications. This was rectified by the purchase of two

radios to install in the attack pumpers. Those radios are capable of communicating on all three Mutual Aid frequencies as well as the town and college frequencies. Thirdly, Craig addressed the problem of a forest fire truck. One of the decisions made at town meeting was to convert the old 26M2, since the chassis and pump are still in good condition into a forest fire truck. As this report was being written, we are already in the process of converting that truck. We have been given a stake body for the back and we are presently taking the old body off the truck. We anticipate that by this Town Meeting, the truck will be well on its way to completion.

This past year, we developed a Mutual Aid agreement with the towns of Ashburnham and New Ipswich. This will become essential as the area between these towns continues to grow. One great addition for the Department was the purchase of a computer which was purchased by the Firefighters' Association. In the present and the future, the computer will be a valuable tool for the department. In addition to making the administrative work easier, the computer will be a valuable tool for pre-planning and fighting fires. At some point, we hope to have all residents listed with the nearest water source.

As you will note by the report of calls attended, the number of calls we respond to annually is increasing, particularly in the area of medical emergencies. Fortunately, we have added people to the Rescue Squad through courses and by adding medically trained people to the department. We want to congratulate Deputy Chief Paul "Doc" Whicker on becoming the first Rescue Squad member to be EMT - I certified. One astounding statistic is the fact that Rindge is now the third busiest town in the Mutual Aid district, behind Keene and Peterborough, and moving ahead of Bellows Falls. As we look to the future, we see an immediate need for the community to have at least a full time Fire Chief to be available to respond to day time calls and to build the kind of inspection program necessary for the community.

As always, we stand ready to serve you in any emergency, but we also remind you that you can do a lot to help us in protecting you. First, keep your smoke detectors in top operating condition. Test them weekly, and don't forget to change the batteries! Then, look around your house and see what you can do to make your home fire safe. The Department and our Fire Prevention Officer will do all we can to assist you. We wish you all a fire safe and healthy year!!

It is generally assumed by the public that the police enforce the criminal laws and preserve the peace mechanically, by simple arresting anyone who has deviated from the norms of acceptable behavior. This concept of mechanical enforcement of all criminal laws dramatically underplays the difficulties of the police role. First, we do not have the resources to enforce all criminal provisions equally. Second, the other parts of the criminal justice system simply cannot cope with all law violators.

Since the police are also expected to prevent crime, they must constantly be alert to potential violations and must attempt to reduce the opportunity for criminal activity. Those of us who are parents can recognize the difficulty in just keeping track of our own children so I'm sure you can appreciate the enormity of the task for our one on duty at a time officer to provide for the safety and protection of our 5000+ population plus the thousands or so more who pass through our community daily. (In the preceding 10 years Rindge has experienced more than a 54% increase in population while during the same 10 year period we have added one man to the police department). We stand ready to provide the best possible service within the limits of our resources. But, we

can't give what we don't have. Crime is a social problem that is interwoven with almost every aspect of life; controlling it involves changing the way schools are run and classes are taught, the way communities are planned and houses are built, the way businesses are managed and workers are hired. Crime is a kind of human behavior, controlling it means changing the minds and hearts of men. Controlling crime is the business of every Rindge resident. We ask for your continued support for together, we can make a difference.

Sincerely,

RINDGE RECREATION DEPARTMENT

Annual Report for 1989

1989 saw the expansion and implementation of many new programs and community activities offered through the recreation department. Because our main objective is the promotion of a healthful and stimulating use of one's leisure time, we try and assist townspeople in putting their time to optimum use. We now offer a variety of athletic and physical activities, craft classes, special interest programs, dances, travel programs and annual events. Some of our programs are targeted to a specific age group while others are open to people of all ages.

Weekly news releases in the local newspapers, posters and printed flyers mailed periodically to all town residents are helping to keep everyone informed of current activities and events. Residents should always feel free to contact the recreation office if they have any questions or if they have a specific interest or suggestion for a new program offering.

Due to the generous donations made by 14 local businesses and citizens, the town appropriated sum of \$2300 for fencing at Wellington Field was handsomely supplemented and a ten foot chain link fence now surrounds our outdoor basketball court. Several additional businesses have also made substantial donations of time, labor and materials towards the installation of a forty foot flagpole at Wellington Field. Our sincere thank you to all of these contributors.

Finally, we would like to thank all of the townspeople and businesses of Rindge who have supported and participated in our programs, volunteered their efforts and skills, encouraged others to become involved, and/or made financial contributions throughout the year. Events such as our "Breakfast With Santa" would not have been possible without the help of the many people who gave freely of their time and energy. Certainly our most valuable resource is our people, and 1989 proved without a doubt that "community spirit is making the difference".

REPORT OF THE TOWN MANAGER STUDY COMMITTEE

At the 1989 Town Meeting, the Board of Selectmen requested a study committee be formed to research the necessity and feasibility of hiring a Town Manager and report and make recommendations to the Townspeople of Rindge at the 1990 Town Meeting. This article was proposed by the Selectmen in response to an ever increasing administrative work load and the need for more consistent management of Town Government that inevitably accompanies population growth. The Committee consisted of four appointed residents, plus the Board of Selectmen.

Although the Committee got a late start, we were greatly assisted by a recent report issued by the New Hampshire Municipal Association entitled "1989 Wage, Salary and Fringe Benefit Survey." With a 1988 population of 5,189, Rindge fell into the survey's category of towns with populations from 5,000 to 9,999. The Study committee wanted to narrow the field somewhat and for the purpose of our research chose to look at towns with populations ranging from 4,200 to 6,200. This population range included three neighboring towns, Jaffrey, New Ipswich, Peterborough, as well as the towns of Atkinson, Bow, Barrington, Farmington, Littleton, Meredith, Pembroke, Plymouth and Swanzey.

We first reviewed the Municipal Association report and discussed the pros and cons of various forms of structuring municipal government. Our group was a fairly diverse one on this topic, but we were able to agree on some major concerns and needs of any town and from this we developed a questionnaire for members to use when contacting the towns in our population range. The goal was to see how the individual towns were structured to address these needs.

The following provides the most apparent results from our questionnaire involving twelve towns of similar size, but not including Rindge.

TOPIC	AFFIRMATIVE	NEGATIVE
Do you employ a ...		
Town Manager?	50%	50%
Administrative Assistant either managerial or clerical	75%	25%
Building Inspector or Permit Officer?	100%	0%

There were many other interesting items that do not tabulate as readily statistically, but the Study Committee felt their importance was worth mentioning. They are as follows: All but one of the town offices contacted in the survey were open daily for eight hours. Backup staffing for the Board of Selectmen ranged from three to seven people including the positions of Clerk, Receptionist, Secretary, Administrative Assistant, Financial Manager, Bookkeeper, Assessor, Building Inspector and Town Manager. One town had a three member Board of Assessors and a separate and distinct three member Board of Selectmen. In some towns the Administrative Assistant was performing duties similar to a manager, while in other towns the position was geared more to clerical duties. Each town had a unique way of structuring town government to accomplish the same tasks, and while some were running smoothly, others were not.

Should Rindge hire a Town Manager? The Study Committee recognizes a definite need to alleviate some of the work load of the Board of Selectmen. The current Board does not feel the Town is running as efficiently as it could. Hours spent on routine administrative tasks ultimately take away from time that could or should be spent on policy making, interaction with department heads, special projects (such as starting a Recycling program), financial planning, and completing state mandated tasks (20 year solid waste management plan, perambulation of town boundaries, etc.) The Study Committee also recognizes the reluctance of the Townspeople to hire a manager they fear may usurp the power of their elected officials. We agree that policy decisions should remain with the Board of Selectmen. However, for the Selectmen to adequately perform their job, the Committee makes the following two-part recommendation:

1. Restructure the Administrative Assistant position to a managerial one. This could involve an increase in salary to accompany the increase in responsibility. Using the Municipal Association report as a guide this translates into a possible additional five to ten thousand dollars.

2. Hire a Building Permit Officer and Inspector. This individual would perform the same type of inspections that are currently performed by the Board of Selectmen - New home and additions inspection, test pits, setback determination, etc. This individual would also handle routine zoning matters in the initial phase. If the individual is salaried, the fees for the various inspections should greatly offset the salary expense. The Study Committee felt it was important to stress this position would not be created to increase paperwork or develop a more complex inspection routine.

In closing, the Study Committee hopes the Townspeople will seriously consider our recommendations. If our overall goal is to preserve our unique form of municipal government, some minor changes may be necessary. This is what we propose to accomplish with the recommendations set forth in this report.

REPORT OF THE HEALTH OFFICER

This has been a busy year due chiefly to septic problems and a wet year. The complaints commonly originate with unidentified callers.

Also, this is the first year for some since that problems have arisen with soil removal and distribution in unacceptable areas.

In such instances the Wetlands Board has been very helpful.

The discharge problems in connection with lakes and streams are still a source of serious contamination a problem we are addressing with other Town Boards and building permits. We still have contamination due to old buildings with obsolete discharge systems particularly when occupation is seasonal. We have no important violations as regarding food handlers and restaurants and minor ones have been eradicated on second inspection.

Another problem presenting difficulties is a bi-state lake such as Mononomock. To address this, I am renewing my Health Officers License in Massachusetts.

Your Health Officer has attended three regional and one State meeting and finding these helpful. I will attend more next year.

The New Hampshire State Department of Public Health has been a well qualified resource.

My activities consisted of eighty-three site visits, eight out of town visits and innumerable phone calls.

State and local officials have been extremely cooperative and I am grateful.

Schools, public and private, have provided no complaints this year and inspections satisfactory with minor problems solved.

Health Officer
